WORK EXPERIENCE

Promsvyaz Bank

October 2022 - Now

.Net Developer

Saint-Petersburg, Russia

Promsvyazbank is a one of the 10 largest banks in Russia, also included in the list of systemically important credit institutions

- Development of the server part based on 14 microservices in C# for processing applications for customer loans.
- Maintenance the legacy bank monolith, working with the company's internal solutions
- Working with enterprise business process automation using Camunda BPM engine
- Assisting newcomers in mastering the project

Ittransition

May 2021 - October 2022

Full Stack Developer (.Net, Angular)

Saint-Petersburg, Russia

Here I was working in a distributed outsource team for Waters Corporation. Waters is the leading provider of lab equipment, supplies and software for scientists across the world.

- Implemented an interface for selecting the required data in the online lab using Angular
- Developed a backend solution using ASP.NET Core to compute the results of the experiment
- Covered the written code with unit tests
- Wrote e2e tests for each implemented feature. Tested frontend, backend and database interaction
- Guided the new developer through the development process and helped launch the project

BearsCom Games

January 2021 - May 2021

C# Unity Developer

Saint-Petersburg, Russia

BearsCom Games is a small Android and iOS game development studio

- Developed the basic game logic: character movement, enemy behavior, interaction with objects
- Implemented the logic of the user interface
- Helped two new employees learn the project
