## Summary

---

I offer approximately **3 years** of hands-on experience developing, designing, shipping large-scale products where availability, performance and security are paramount. I am an accelerated graduate with a Bachelor of Science in Software Engineering. I have established myself as a versatile software engineer who enthusiastically takes on new problems across the full-stack.

## Skills

---

PHP, TypeScript, JavaScript, Python, Laravel, SQL, React, Django, AWS, DigitalOcean, Nginx, Git, UNIX

## Experience

---

**Software Engineer**, Bella Jun 2024 – Present

Company is engaged in production of food, exports to over 20 countries, including the USA, Australia, Spain and Turkey.

**Tech Stack:** PHP, Laravel, TypeScript, React, Node.js, Express.js, JavaScript, Pl/SQL, MySQL, EBS Oracle, HTML, CSS, Bash, Git, Linux.

**Full-stack Web Developer**, Shkolo Oct 2022 – Jan 2024

Developing an online school diary, used in over 1500+ schools. Platform for conducting online private lessons with tutors with 900,000+ regular users.

- Integrated promo codes into applications, reducing the administrative workload by 10%.
- Implemented a bug reporting system, decreasing the support team's workload by 15%.
- Improved calendar functionality in the online lesson application, enhancing scheduling efficiency.
- Enhanced the online lesson application, improving calendar functionality for better scheduling.
- Developed a system to manage teacher activity on the platform, leading to a 10% increase in previously inactive teachers becoming active.

**Tech Stack:** PHP, Laravel, Typescript, JavaScript, React, Redux, MySQL, Next.js, Node.js HTML, CSS, Axios, DigitalOcean, Nginx, Bit Bucket, Bash, Git, Linux.

**Frontend Web Developer**, PlanA Jun 2022 – Sep 2022

Building inventory management applications for customers in retail.

- Enhanced the user interface for better customer experience, resulting in a 15% increase in user satisfaction.
- Developed a real-time inventory tracking feature.
- Designed intuitive and responsive user interfaces, enhancing overall user engagement.

**Tech Stack:** TypeScript, JavaScript React, Ag-Grid, Axios, GraphQL, HTML, CSS, styled-components, Bit Bucket.

**Backend Web Developer**, Swimcloud Jun 2021 – Dec 2021

Developing an application for recruiting athletes to universities in the USA.

- Processed competition results from LENEX files and added them to the database.
- Developed a pet project for a library book rental application.
- Fixed small bugs to improve application stability and performance.

**Tech Stack:** Python, Django, MySQL, Nginx, uWSGI, GitHub, Git, Linux, Bash.

## Education

---

**Bachelor of Science**, Software Engineering 2019-2022 (Accelerated Individual Plan) | **Plovdiv University "Paisii Hilendarski"**, Plovdiv, Bulgaria
