SUMMARY

I'm a business problem-oriented Senior Front-end Engineer with over 10 years of experience.

My interests include user interfaces for data-related tools, rendering optimization, and developer tooling.

I have a working experience of 3+ years Back-End development experience as a BE team member.

Can lead small/medium-sized teams and/or work highly autonomously and as a part of a team.

SKILLS

TypeScript, JavaScript, React, Redux, Golang, gRPC, Python, Swift, MaterialUI, styled-components, GraphQL, Tailwind-CSS, CSS, FastAPI, git, Next.js, fp-ts, Cypress, Jest, NodeJs.

EXPERIENCE

- 01/2022 – Present **Senior Frontend Engineer** **Sperta**
- Engaged with Sperta, a Silicon Valley startup focused on risk decision platforms. Contributed to the development of a product with complex logic, including diagram makers, a code editor, RBAC, feature flags, and rendering of a vast amount of data.
 - Defined leading technologies, architecture, and code styling patterns so other developers could work independently but as a team.
 - Delivered the working product to clients 4 months before the deadline. With a total of 2 years estimated.
 - Over-performed the company's expectations and covered a need for 2 front-end and 1 back-end developer.
 - Engineered a product adopted by 100+ high-value clients, including a prominent FAANG-level company, contributing to an annual revenue surge exceeding \$1 million.
- 9/2021 – 1/2022 **Senior Frontend Engineer** **UniCredit**
- The second biggest bank in Italy. Annual revenue is \$25.04 B in 2023.
 - Finished and successfully released a banking internal tool adopted by 500+ corporate users.
 - Solved the release-blocking issues and delivered a working product a month before the deadline.
 - Quickly on-boarded and started to work on an entirely new coding paradigm as a member of the FP-TS library authors (10k starts on GitHub).
- 5/2020 – 6/2021 **Lead Frontend Engineer** **Sberbank**
- The biggest bank in Russia. Annual revenue is \$31.93 B in 2023.
 - Led and mentored a team of 3 engineers to build a tool for issuance of large loans.
 - Dramatically increased the feature delivery time by 80% by improving the code structure and architecture.
 - Defined the Front-End development standards, minimizing the amount of bugs by 75%.
- 10/2017 – 1/2020 **Frontend Engineer** **LAF24**
- Collaborated as a member of a team of 7 engineers to develop an ERP system with 500+ in-house users.
 - Mentored 1 team member for a comfortable transition from UX designer to Front-end development.
 - Developed in-house design system.

EDUCATION

9/2014 – 7/2018 **Bachelor in Mechatronics and Robotic Systems** **Tomsk State University**
