Can fast find a reason for the problem and resolve it as soon as possible. Very attentive to details and questions regarding architecture, as it allows to predict potential risks in the future and to create a stable application. Constantly I'm open to dialog and discussions, thanks for it I can find more optimal and quality solutions. I dislike pouring water therefore all my ideas and offers I argue and give justification.

SKILLS

JS, TypeScript, SCSS/CSS&HTML, React, React-router, Redux, Redux Toolkit, Redux-Saga, styled-components, NPM, Webpack, MongoDB, Firebase, Formik,
