📍 Limassol Cyprus, telegram: @averinp

## ABOUT ME

I am an experienced finance specialist. At the current stage of my carrier, I wanted to make the transition from a financial specialist to a data analyst. I have built a solid pool of technical skills including statistics, python, and SQL. Looking forward to implementing my experience in data analysis in new and interesting fields. Currently learning Python and math for ML and AI.

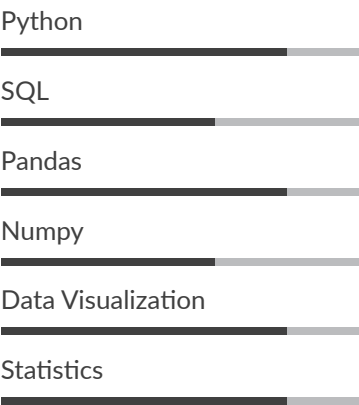

## EDUCATION

**NANODEGREE**  
*Udacity, Programming for Data Science with Python*  
\* SQL \* Python  
\* Git and version control \* Bash

**NANODEGREE**
