SUMMARY

Experienced Frontend Developer with 4 years of expertise in designing, coding, and optimizing websites. Proficient in frontend technologies including React and ReactNative. Skilled in writing clean, efficient, and well-documented code. Strong knowledge of HTML5, CSS3, JavaScript/Typescript, and virtual DOM and experience with testing libraries like Jest. I have good listening, and communication, problem-solving skills, and attention to detail.

EXPERIENCE

Web Developer Mentor

Soonun Mektep

March 2023 – August 2023, Kyrgyzstan/Bishkek

- Created and delivered 100+ video lessons on HTML, CSS, JavaScript, and React on YouTube to promote digital transformation.
- Generated engaging, Kyrgyz-language content to teach web development concepts.
- Received positive feedback, demonstrating the impact of the lessons on their understanding and skill development.
- Stayed updated with emerging technologies and industry trends, proposing innovative solutions to enhance web applications and user interfaces.

Frontend Developer

Trixcode

December 2020 – March 2023, Kyrgyzstan/Bishkek

- Successfully developed 12+ responsive web applications and projects, including a jewelry store, Android widgets, a politics website, and various user-friendly webpages for German and European clients by using React.js, SASS, Tailwind CSS, Gsap, and Three.js.
- Developed a React/TypeScript-based PWA for a Russian Waste Management service (TMS, CMS) project using Next.js and GraphQL, Redux Saga, achieving a 20% traffic increase and a 50% user engagement boost through performance optimization.
- Collaborated with the marketing team to implement SEO best practices for the web application, enhancing scalability and optimizing website content.
- Participated in code reviews, providing guidance on writing clean code, improving review efficiency, and leading junior team members.
- Experienced in writing unit tests, server-side rendering (SSR), client-side rendering (CSR), responsive design principles, and utilizing frameworks such as Material UI, and UIKit.

Frontend developer

Kundoluk.kg

May 2020 – December 2020, Kyrgyzstan/ Bishkek

- Developed and maintained responsive web/mobile applications using C#, JavaScript technologies and modern libraries (Vue.js/Nuxt.js)
- Collaborated with team members, designers, and the backend team to understand project requirements and integrate APIs, particularly those related to timetable scheduling, homework management, and student evaluation features.
- Wrote and maintained the codebase, implementing necessary updates and bug fixes.
- Optimized the app's code for improved performance and scalability.
