Frontend Developer

Phone Number: +998903646903

ABOUT ME

A committed Frontend Developer with a Bachelor's degree in Internet and Information Communication from Korea International University in Ferghana. Proficient in HTML, CSS, JavaScript, and React. Experienced in crafting compelling user experiences and excelling in team-oriented environments.

WORK EXPERIENCE

IT Time Academy, Sep 2023 –Dec 2023 as Frontend Developer

Contributed to frontend development projects, collaborating with a team to implement design solutions. Participated in code reviews and provided support in maintaining coding standards. Assisted in the onboarding process of new team members by sharing project knowledge and best practices.

Limsa, Jan 2024 – Present

Leading frontend development efforts for the Limsa project, contributing to its design and implementation. Collaborating with team members to develop user-friendly interfaces and implement innovative features. Conducting regular code reviews and providing feedback to maintain high coding standards. Playing a key role in resolving technical issues and optimizing performance to enhance user experience.

PROJECTS

Dezinfaction

Developed a comprehensive multilingual application utilizing the i18next library to cater to a diverse user base. Engineered an innovative form submission system that relays user input directly to a designated Telegram channel using a dedicated Telegram bot, significantly reducing response times by eliminating the dependency on a traditional backend server.

Building House

Spearheaded a complete website redesign by introducing modern animation techniques that aligned with contemporary design trends. Implemented a variety of responsive sliders that improved user interaction and showcased the company's projects effectively.

Online furniture store

Architected an online shopping platform, integrating an intuitive user interface with react-router-dom for seamless navigation across pages. Developed a dynamic data flow system that allowed for real-time updates of product information, enhancing the shopper's experience.

Autozoom

Played a pivotal role in the design and development of the homepage for an automotive marketplace. Fostered successful collaboration with team members to merge individual components into a cohesive design, demonstrating strong teamwork and communication skills.

Targetolog

Designed a specialized dashboard for digital marketers to efficiently send course and tariff information directly to a business's Telegram channel. Employed Telegram API integrations to automate data transmission processes, thereby improving operational efficiency.

Admin Panel

Innovated an admin panel to manage content dynamically across the platform. Utilized react-router-dom to handle in-site navigation and augmented the backend API to include functions for inserting and managing new data entries, streamlining administrative workflows.

EDUCATION

Korea International University in Ferghana, 2021-2025 Bachelor of Internet and Information Communication

SKILLS

Html, Css, Javascript, React, Redux Toolkit, Bootstrap, Tailwind, Git,Trello,Jira
