EXPERIENCE

iOS Developer at SECOND Company: 02/2022 - Present

Part of the squad that developed mobile apps. Worked on the full cycle of mobile app development, both adding new features, fixing bugs, and from scratch to publication in the AppStore. Worked on more than 6 different projects (1 of them on Flutter), both as a team and as the sole iOS developer.

- One of the main developers on the project, implemented core functionality using Swift language
- Developed an app MVP in 1 month, starting from scratch and bringing the project to App Store release.
- Conducted a complete redesign of an iOS app in accordance with HIG requirements.
- Created an interactive screen with Google Maps custom pin and cluster design.
- Released iOS app releases to the AppStore, fixed 2 AppleReview redactions.
- Participated in projects using cross-platform technologies and native programming languages.

iOS Developer Freelance: 06/2021 - 02/2022

I have worked as a freelance iOS developer, focusing on creating mobile apps for clients.

- I have successfully developed, fixed and launched several iOS applications
- Diversified the design of the application by implementing support for dark, light and system themes.
- Fixed bugs that could cause the app to crash.
