EDUCATION

Bachelor of Science in Computer Science, Nazarbayev University

August 2021 - May 2025

Relevant Coursework: Performance and Data Structures,
Algorithms, Database Systems, Software Engineering.

TECHNICAL SKILLS

Languages: C/C++, Java, JavaScript/TypeScript, Python, HTML/CSS

Framework/Tools: React, Redux, Apollo Client, NextJS, NestJS, FastAPI, Git, Docker, PostgreSQL

Problem Solving skills: Solved around **200** problems in LeetCode platform by using various algorithms and data structures

EXPERIENCE

Biny

August 2023 - September 2023

Junior Front End Developer

- Created multiple responsive websites for mobile and desktop devices using **HTML** and **CSS**, as well as third-party libraries such as **React**, **Vue**, **Quasar**.
- Integrated **Apollo Client** for GraphQL integration, which resulted in a **43%** reduction in API response time.
- Wrote 25+ automated tests for every new feature to identify and rectify bugs.

Arta Software

June 2023 - August 2023

Front End Developer Intern

- Developed using **HTML**, **CSS**, **JavaScript** and **jQuery** to enhance functionality and user experience on web pages.
- Collaborated with project managers to successfully deliver projects on time, resulting in an increase in organizational efficiency.
- Developed and maintained legacy applications.

Freelance

December 2022 - June 2023

Front End Developer

- Developed, optimized and maintained the websites and applications using a wide range of technologies, like **HTML**, **CSS**, **React**, **Tailwind CSS**, **TypeScript** and various **APIs** to meet clients' needs and goals.
- Collaborated with UI designers, sales and marketing people within numerous organizations to launch product on time.

PROJECTS

Game E-commerce — *React, FastAPI, Apollo Client, PostgreSQL*

[link](#)

August 2023 - Present

- Developing a full-stack game e-commerce web application using **React** and **Apollo Client** for the frontend, and **FastAPI**, **PostgreSQL** and **GraphQL** for the backend.
- Currently developing a game e-commerce app, which will have user authentication using jwt tokens, integration with PayPal and Stripe, and in future, will be added more features, like selling games and so on.

Medium clone — *React, Next, Tailwind CSS, Sanity*

[link](#)

December 2022

- Developed a full-stack medium clone web application using **React** and **Tailwind CSS** for the frontend, and **Sanity** and **Next** for the backend. Features include commenting, publishing posts, and other functionalities.
