SUMMARY

I have 1.5 years of experience working with python and related technologies. I'm currently looking for a company where I can learn from experienced developers, thereby improving myself as a specialist and improving the performance of the company in general. I am really into gaining new experience. I speak many languages. I love reading, learning and improving myself in new industries.

EXPERIENCE

Backend Developer

Nov.2023 – Feb.2024

Think Tecture

Stuttgart, DE

- Developed online shop using Django, DRF, Celery, Rabbitmq, StripeAPI, PostgreSQL
- Added a shopping cart system for users, based on Django sessions
- Integrated Celery and Rabbitmq into the project, thereby improving the store's productivity by half
- Worked with the StripeAPI, integrated their payment session and had experience working with their webhooks
- Developed RestAPI using DRF

Fullstack Developer

June 2023

Tricept - Intern

Stuttgart, DE

- Developed web application using Django and PostgreSQL to store local sports team data
- Also created a RestAPI for this project using DRF
- Developed simple Front-End part of this app using JavaScript and HTML5/CSS3
