EDUCATION

SWSU

Bachelor of Computer Science -
Software Engineering

Sep, 2014 - Aug, 2019

GPA 3.8/4

WORK EXPERIENCE

Livegenic

Frontend Developer

Oct, 2019- May, 2023

Developed corporate CRM network with client API integration.

Application linking internal processes with statistics on clients, purchases and warehouse operations.

Worked out by myself the architecture of the application taking into account further scaling, using OOP design techniques, such as SOLID, DRY. During the development process I actively used well-known refactorings to implement GOF patterns into the code.

SKILLS

React, Next.js, Redux

RestAPI, AJAX, axios

BootStrap, Tailwind

Node.JS, Express, MongoDB

JavaScript, TypeScript

SASS, SCSS

Webpack

Docker

Jest
