WORK EXPERIENCE

VK (Largest social network in Russia)

November 2020 – *present*

Android Software Engineer

Moscow

- Developed the cross-app authentication inside the VK ecosystem and beyond, distribute by **SDK**
- Managed and cooperated with other teams to help them integrate the SDK, think over extra features and create a tech roadmap for future implementation of it
- Implemented and designed new login flows. Login without a password, via push notification, 2FA

Wildberries Travel (Travel metasearch engine)

February 2020 - November 2020

Android Team lead

Moscow

- Built a new project from scratch with new technology stack. Taught myself **MVVM**, **Kotlin Flow** and **Android Navigation** and lead team up to 5 more android developers. Combining duties of tech lead and developer released an app within strict deadlines.
- Implemented support for **Google Services** and **Huawei Services**
- Configured **CI/CD** environment using **Gitlab** by creating a pipeline to pull code from Git Repository

Wildberries (Biggest Russian e-commerce market)

September 2019 – February 2020

Android Developer

Moscow

- Helped to migrate the business logic of a high-load marketplace app to a microservice architecture
- Designed and implemented functionality of evaluating the pickup points using **Google Map APIs**
- Increased the percentage of crash-free by catching and fixing bugs using **Firebase** and custom **analytics tools**

App in the Air (Personal travel assistant)

June 2019 – September 2019

Android Developer

Moscow

- Designed and implemented chat functionality into a travel assistant app

Taxcom (Leading Russian tax-compliant B2B service)

June 2018 – June 2019

Android Developer

Moscow

- Created interface for display a huge amount of data in the B2B segment based on **custom view**
- Developed system for providing and processing information about products in **offline mode** with subsequent synchronization with the server
- Integrated barcode scanning system using **Camera API** to introduce accounting of goods in warehouse
