### PROFILE

Software engineer with master's in information security and 10 years of experience specializing in front end. Seeking to leverage my technical and soft skills to become the next software engineer at ByteDance.

### EDUCATION

2005-2010

Information security,  
Master's degree,  
Ufa State Aviation Technical  
University

### SKILLS

#### FRONT END DEVELOPMENT

Javascript, Typescript, React,  
Angular

#### BACK END DEVELOPMENT

PHP, Java, Node.js

#### MOBILE DEVELOPMENT

React Native, Cordova

#### DATABASES

MySQL, Postgres, MongoDB,  
CouchDB, InfluxDB

#### FEATURE LEADING

### EXPERIENCE

#### SENIOR SOFTWARE ENGINEER

##### **Atlassian, Australia | jun 2017 - present**

- Writing tons of javascript code. Refactoring legacy, adding new features.
- Monitoring our team's SLAs
- Feature Leading. Led multiple projects from planning to delivery. Drove key decisions, such as choosing tech stack and building an API. Facilitated deployment and managed expectations of customers and stakeholders. Mitigated potential negative impact on customers by adding metrics and SLAs.
- Mentoring junior developers.
- Gave several public talks. Topics: JS fundamentals - event loop/call stack; Accessibility; How to handle very long recursions.

#### SOFTWARE ENGINEER

##### **Philips, Netherlands | nov 2016 - may 2017**

- As part of PPF (proto-pilot factory) team, I was developing prototype mobile apps using React Native.

#### TEACHER

##### **Belarusian State University of Informatics and Radioelectronics, Belarus | sep 2015 - jun 2016**

- Initially started as a lab assistant, I had to replace the teacher and led one subject for two semesters. I conducted lectures, lab sessions and exam in the end of second semester.

#### FULL STACK DEVELOPER

##### **HQSoftware, Belarus | nov 2014 - oct 2016**

- Developed all sort of apps (web/mobile/desktop) using various languages (Javascript, PHP), libraries and frameworks (React, React Native, Angular, Ember, Symphony, Laravel, Electron) and databases (MySQL, Postgres, MongoDB, CouchDB, InfluxDB)
- Communicated with customers and together with them planned our work
- Managed the team work and collaboration

#### PHP DEVELOPER

##### **B2B-Center, Belarus | feb 2014 - oct 2014**

- As a PHP developer during my time at B2B-Center I was developing trade platform used by large businesses in Russia.

#### WEB DEVELOPER

##### **Prestigia.com, Morocco | sep 2011 - nov 2013**

- Prestigia is a small online travel agency, where I worked on both back end (PHP, MySQL) and front end (Javascript, jQuery).
