Summary

As a software developer, I have experience in both frontend and backend development. One of my most notable accomplishments is my contribution to the development of a project management platform and a foreign language learning application. My team and I utilized TypeScript, React, i18next, react-beautiful-dnd, and MUI to create a user-friendly and efficient solution. Additionally, I have practical experience in creating APIs using NestJS and application containerization. I am proficient in writing native JavaScript, CSS, and utilizing HTML5 semantics.

Experience

Frontend Web Developer

Freelance

Jun 2021 - Present (1 year 9 months)

• Rewrote outdated code, resulting in an average response time increase and more than a 30% reduction in errors.

• Contributed to implementing architecture, linters, and tests, leading to an improved code quality with at least 70% coverage.

• Experienced in working within a Scrum team and achieving results under time pressure, with sprints averaging two weeks each.

Education

Mordovian National Research State University. N.P. Ogareva, Saransk Engineering, Economics and enterprise management (by industry)

Economics

Sep 2003 - Jul 2008

Licenses & Certifications
