Dastan Salmurzaev

Front-end Developer · Salmurzaev1st@gmail.com

Summary

I am a Front-End Developer with over 1 year of professional experience.
Currently building an education platform for Assistive Solutions to strengthen their learning experience.

Experience

Assistive Solutions   *Remote*

Front-end Developer   *Dec 2021 - Present*

- Constructed clean and responsive React components according to Figma Designs.
- Refactored over 1,000 lines of code to optimize the performance of React components.
- Mentored and assisted junior programmers on best practices and reviewed their code.

Projects

Doctor-crm   *Bishkek, Kyrgyzstan*

Solo Project - NodeJs, Express, PostgreSQL, Sequelize, React, Redux, MaterialUI   *July 2022*

- Prototype CRM system for clinics, to optimize the work of medical staff.
- Designed authorization system to register administrators with the use of JSON Web Token.
- Forged system to allow doctors to check-in and check-out patients and see their history of diagnoses and prescriptions taken.
- Generated dynamic reports using Chart.js to allow doctors to track patient data such as temperature, blood pressure, breathing, and heart rate.
- Provided administrators with the ability to prescribe medicine to patients for each day of their visit and saved this history in the database.
- Produced functionality for administrator to download reports about their patients in PDF format using Multer.
- **Source code, GitHub**

1.1 Studio   *Moscow, Russia*

Group Project - JavaScript, React, Redux, Redis, PostgreSQL, Sequelize ORM, NodeJs   *Nov 2021*

- Collaborated with 4 colleagues to build a prototype website for a famous film studio, 1.1 Studio.
- Built an admin portal to allow admins to add, edit, and delete films or series from an SQL database.
- Enabled admins to upload videos to the SQL database using Multer.
- Created functionality for users to search series or films and categorized them by seasons.
- Coded bonus feature to send video data in chunks to the client-side in order to allow users to watch videos with very little lag.
- Assembled interactive functionality enabling admins to create their own blog on the site and allowing users to get in touch with 1.1 Studio.

Education

Elbrus Coding Bootcamp   *Moscow, Russia*

Certificate in Full-Stack Web Development   *Jun 2021 - Dec 2021*

Studied intensively for over 500 hours to develop a strong understanding in the fundamentals of web development.

Kyrgyz National University   *Bishkek, Kyrgyzstan*

Bachelor of Science in Accounting and Finance   *2014-2018*

Faculty of Finance and Credit

Skills

Web Development

Technology/Concepts I am proficient in

- Front: JS, React, Redux, HTML, CSS, Styled Components, MUI and others popular JS libraries
- Back: NodeJs (Express), PostgreSQL (ORM Sequelize + Raw query)

Languages

Languages I am proficient in

- English(pre-intermediate)
- Russian
- Kyrgyz
