teslayui@gmail.com

Professional Summary

My name is Abudurafik, I am 22 years old, and I have been studying Android for 1 year, I think my purpose of applying to your company will be helpful to you.
Because I thought I would be helpful to you thanks to the libraries I know. Money is not essential for a start, I'm happy if I can benefit you and gain new experiences!

What do I know?

 • Room, SQLite, dagger-hilt, firebase, MVVM, clean-architecture, retrofit, rxjava, coroutine,koin, DataStructure and algorithm, glide,
XML
 • The program I made with the help of some of these is: "Imei Scanner", I prepared it at the request of a friend, you can download it from my github page
https://github.com/brave881/ImeiScanner/blob/master/app-debug. apk
