WORK EXPERIENCE

University of Nice Sophia Antipolis (Eurocom, Inria), Nice France   11/2021– Current
Software Engineer Intern
Stack: C, FlatBuffer, ASN.1, FlexRIC, Java, Eclipse Framework
Achievements:
- Added support for 5g by implementing the FlexRIC extension to effectively monitor the SDAP sublayer.

#####, Kharkiv, Ukraine   9/2020 – 9/2021
Python Backend Developer
Stack: Python, AioHttp, Flask, Django, PostgreSQL, Redis, MongoDB, AWS, VueJs, NodeJs
Achievements:
- The implementation of bots made it possible to use new features and helped to attract an additional 15% of the target audience. As a result, this led to additional earnings of about $45k
- Optimization and adding multilingualism to the system solved about 75% of existing errors and helped to earn an additional $40k by reaching new user segment
- The implementation of the notification system and admin panels helped speed up the work with the systems by 2 times and reduce costs by about $60k
- Mentored and conducted onboarding in projects for other colleagues

Kharkiv, Ukraine   8/2020 – 12/2020
Python Backend Developer
Stack: Python, AioHttp, PyTest, PostgreSQL, Redis
Achievements:
- Thanks to the questionnaire service it became possible to use new features in the platform. This helped to attract an additional 10% of the target audience. This in turn led to earning an additional 20k$ approx
- Legacy code coverage with the tests allowed to avoid approx 60% of bugs. Therefore, this helped to decrease the time to market by a half approx. This helped to earn an additional 30k$ as most of the market players left behind
- Mentored junior and provided tasks for them

######, Freelance, Kharkiv, Ukraine   5/2017 – 8/2020
Backend Developer
Stack: Python, AioHttp, Flask, Django, PostgreSQL, MongoDB, Drupal
Achievements:
- Was a member of a team that developed a web application for one of the biggest Ukrainian telecommunications companies
- Developed a web application that presented results of the web scraping of news to the user
- Designed and developed eCommerce websites, one-page websites, and bots

Self-Employed, #####, ####, Kharkiv, Ukraine   12/2015 – Current
Software Developer Coach
Achievements:
- Hosted webinars with over 40 people
- Coached more than 300 people in group and individual classes. As a result, more than 80% of students successfully create projects and get jobs.
